

High quality and modern looking car stand for 1/10 Off-Road & 1/8 On-Road chassis. The car will have a very stable and safe position based on the large footprint and the two rubber/foam stripes on the left and right side. The stand also has four holes to place shocks for maintenance or refilling. It doesn't matter if you would like to lubricate the tires, cleaning or maintenance the car, with this stand you will manage everything very easily and within short time.
