K1401

G4 & V1 Low Friction Front Belt

The best low friction belt available in the market.

K1402

G4 & V1 Low Friction Side Belt

The best low friction belt available in the market.

K1403

G4 & V1 Low Friction Rear Belt

The best low friction belt available in the market.

K1404

G4 & V1 Low Friction Side Belt (Special Size) (for K1405)

The best low friction belt available in the market.

K1405

G4 & V1 Hard Coated 26T Pulley (Special Size) (for K1404)

Hard coated lightweight alum. pulley for efficient transmission.

K1406

G4 Alum. Front Roll Bar Mounts (w/anti-roll bar)

Fully adjustable blade type anti roll bars with alum. mounts

K1406-1

G4 Front Anti-Roll Bar

Blade type anti-roll bars for replacement.

K1407

G4 Alum. Rear Anti-Roll Bar Mounts (w/anti-roll bar)

Fully adjustable blade type anti roll bars with alum. mounts

K1407-1

G4 Rear Anti-Roll Bar

Blade type anti-roll bars for replacement.

K1408

G4 Carbon Radio Plate

High quality carbon plate to house radio gears.

K1409

G4 & V1 Lightweight Front One-Way

Expensive one-way bearings used for the best performance.

K1409-1

G4 & V1 One-Way Joint Cup (2)

Stiff joint cups for replacement.

K1410

G4 Hard Coated 30mm Push Type Clutch Set

Lightweight push type clutch set with unbelievable power.

K1410-1

New Clutch Shoe, flyweights & spring set (for K1410/K1341/K1215)

Special heavy power conversion set for 30mm clutch set.

K1411

G4 & V1 Alum. Rear Solid Axle (w/pulley)

Rear solid axle for using on high traction tracks.

K1412

G4 Hard Coated Alum. Light 19T Clutch Gear

Machined by special machines for smoothest transmission.

K1413

G4 Hard Coated Alum. Light 20T Clutch Gear

Machined by special machines for smoothest transmission.

K1414

G4 Hard Coated Alum. Light 21T Clutch Gear

Machined by special machines for smoothest transmission.

K1415

G4 Hard Coated Alum. Light 23T Clutch Gear

Machined by special machines for smoothest transmission.

K1416

G4 Hard Coated Alum. Light 24T Clutch Gear

Machined by special machines for smoothest transmission.

K1417

G4 Hard Coated Alum. Light 25T Clutch Gear

Machined by special machines for smoothest transmission.

K1418

G4/FW05/V1RR Alum. Clamp Type Hex Wheel Hub (4)

Special designed alum. wheel hub to hold the wheels tight.

K1419

G4 Fuel Tank

Low CG fuel tank with special adjustable tank lid.

K1419-1

G4 Fuel Tank Cap

Fully adjustable tank cap for replacement.

K1420

G4 Hard Coated Alum. Middle Shaft

Lightweight strong alum. shaft for better acceleration.

K1423

G4 Lightweight Alum. One Way Hub (w/bearing)

Less rotating mass & better acceleration.

K1424

G4 Lightweight Alum. 2 Speed Housing (w/bearing)

Less rotating mass & better acceleration.

K1425

G4 Lightweight Alum. Engine Mount

Grinded, leveled & finned lightweight engine mounts.

K1426

G4 Alum. Radio Plate Support

Stiff, but light supports for the radio plate.

K1427

G4 Alum. Servo Mount

Stable & lightweight mounts to hold the servos.

K1427-1

G4 Carbon Transponder Holder (for K1427)

Special carbon plate for replacement.

K1428

G4 Alum. Throttle Linkage Mount

Alum. hopup with bearing for smooth action.

K1429

G4 Lightweight Alum. Front Lower Bumper

Well designed lower bumper to protect the chassis.

K1430

G4 Carbon Bumper Top Plate (w/alum. post set)

Fancy carbon plate to increase overall strength.

K1431

G4 4mm Lightweight 7075 Alum. Chassis

Lightweight, but never sacrifice the hardness.

K1431-1

G4 4mm Chassis Carbon Protector

Small carbon plate for replacement.

K1432

G4 Alum. Sliding Steering Rail Mount

Stiff mounts to hold sliding rails in position.

K1433

G4 Alum. Front Diff Mount

Anodized alum. mounts to hold the one-way.

K1434

G4 Alum. Brake Lever

Strong alum. lever is perfect for long time usage.

K1437

G4 Rear Carbon Shock Tower (w/alum. stiffener)

Lightweight carbon shock tower with precise alum. mount.

K1437-1

G4 Rear Carbon Shock Tower Only

Carbon shock tower for replacement.

K1438

G4 Carbon Brake Bracket

Precise carbon bracket helps brake precisely.

K1439

G4 Carbon Side Plate

Special carbon brace stiffens the whole car.

K1440

G4 4mm Front Carbon Shock Tower

Beefy carbon tower well supports shock absorbers.

K1441

G4 Front Upper Carbon Stiffener Bracket

Main spirit of the G4, stylish design.

K1442

G4 Front Lower Carbon Arm Stiffener Brace

Lightweight brace holds the pins precisely.

K1443

G4 Lightweight Vent Brake Disc

Vented brake disc for better heat dissipation..

K1444

G4 9mm Titanium Pivot Ball (2)

Titanium makes them light, but strong.

K1445

G4 9mm Titanium Pivot Ball (8)

Titanium makes them light, but strong.

K1446

G4 Lightweight Steel/Nylon Composite 9mm Pivot Ball (2)

Steel threads with nylon ball design.

K1447

G4 Lightweight Steel/Nylon Composite 9mm Pivot Ball (8)

Titanium makes them light, but strong.

K1448

G4 Alum. Pivot Ball Nut & Teflon Washer(2)

Lightweight alum. nuts & smooth Teflon washers.

K1449

G4 Alum. Pivot Ball Nut & Teflon Washer(8)

Lightweight alum. nuts & smooth Teflon washers.

K1450

G4 Hard Composite Front Upper Arm

Super strong nylon composite material.

K1451

G4 Hard Composite Front Lower Arm

Super strong nylon composite material.

K1452

G4 Hard Composite Rear Arm Set

Super strong nylon composite material.

K1453

G4 Lightweight Ball Differential

Adjustable ball differential for easy tuning.

K1457

G4 & V1 Hard Coated 18T Pulley

Hard coated lightweight alum. pulley for efficient transmission.

K1458

G4 & V1 Hard Coated 19T Pulley

Hard coated lightweight alum. pulley for efficient transmission.

K1459

G4 & V1 Hard Coated 27T Pulley

Hard coated lightweight alum. pulley for efficient transmission.

K1460

**G4 & V1 Hard Coated
32T Front Pulley**

Hard coated lightweight alum.
pulley for efficient transmission.

K1461

**G4 & V1 Hard Coated
19T Brake Pulley**

Hard coated lightweight alum.
pulley for efficient transmission.

K1462

**G4 & V1 Super Hard
Universal Joint (2)**

Wheel shaft & drive shaft are
joined together.

K1463

**G4 Super Hardened
Hinge Pin (Front Upper)
(2)**

Not easy to bend even after a
severe crash.

K1464

**G4 Super Hardened
Hinge Pin (Front Lower)
(2)**

Not easy to bend even after a
severe crash.

K1465

**G4 Super Hardened
Hinge Pin (Rear Upper)
(2)**

Not easy to bend even after a
severe crash.

K1466

**G4 Super Hardened
Hinge Pin (Rear Lower)
(2)**

Not easy to bend even after a
severe crash.

K1467

**G4 Alum. Lower Spring
Cup (4)**

Precisely machined cup to hold the
springs.

K1469

**G4 Hard Coated Clutch &
2 Speed Gear Wrench**

Special wrench for gear removal.

K1470

**G4 Alum. Sliding
Steering Servo Saver**

Alum. servo saver with high quality
sliding bushing.

K1471

**G4 Carbon Brake
Bracket (w/alum. belt
tensioner)**

Carbon plate for precise brake,
rear belt tensioner included.

K1472

**G4 Shock Piston (#1,
#3, #4) (6)**

Several different size pistons for
easy tuning.

K1473

G4 Carbon Rear Shock Tower Stiffener

Additional brace to further stiffen the shock tower.

K1474

G4 New Alum. Middle Mount

Newly designed mount for better performance.

K1475

G4 New 4mm Lightweight 7075 Alum. Chassis

New chassis with better opening design.

K1476

G4 High Density Servo Saver Dust Cover (8)

Better dust free function with these covers.

K1479

G4 3mm Lightweight 7075 Alum. Chassis

Lightweight chassis specially for faster lap time.

K1480

G4 New Steering System (w/ 8pcs bearings)

New stable swing rack steering system.

K1481

G4 Hard Composite Steering Block (more steering)

Larger steering angle can be achieved.

K1482

G4 & V1 Hard Coated 18T Side Pulley (2 speed shaft)

New pulley for better acceleration.

K1483

G4 & V1 Hard Coated 18T Brake Pulley

New pulley for better acceleration.

K1484

G4 & V1 Hard Coated 20T Side Pulley (2 speed shaft)

New pulley for better top speed.

K1485

G4 & V1 Hard Coated 20T Brake Pulley

New pulley for better top speed.
