

Ghiant - New RC Car Coloure 946 Blue-Green

07/16/2015 12:10 by admin (comments: 0) Ghiant

Already on stock is this very interesting new colour to paint lexan parts. The new colour is a combination of blue and green and looks pretty good. Doesn't matter if on the entire surface or just partly as an effect, you always will receive an amazing result.

With these colour Ghiant compliments the already great range of RC Car colours with another highlight.

GHANT
