

Hobbywing QuicRun ESC Brushed & Brushless

09/27/2015 12:40 by admin (comments: 0) Hobbywing

The QuicRun series of products include brushed power systems, sensored brushless power systems and sensorless brushless power systems. They are very cost-effective, and specially for beginners and intermediate-level drivers. This series not only continue the outstanding quality of HOBBYWING products, but also simplify the operation. Users can directly use them without any complicated adjustments.

The Features

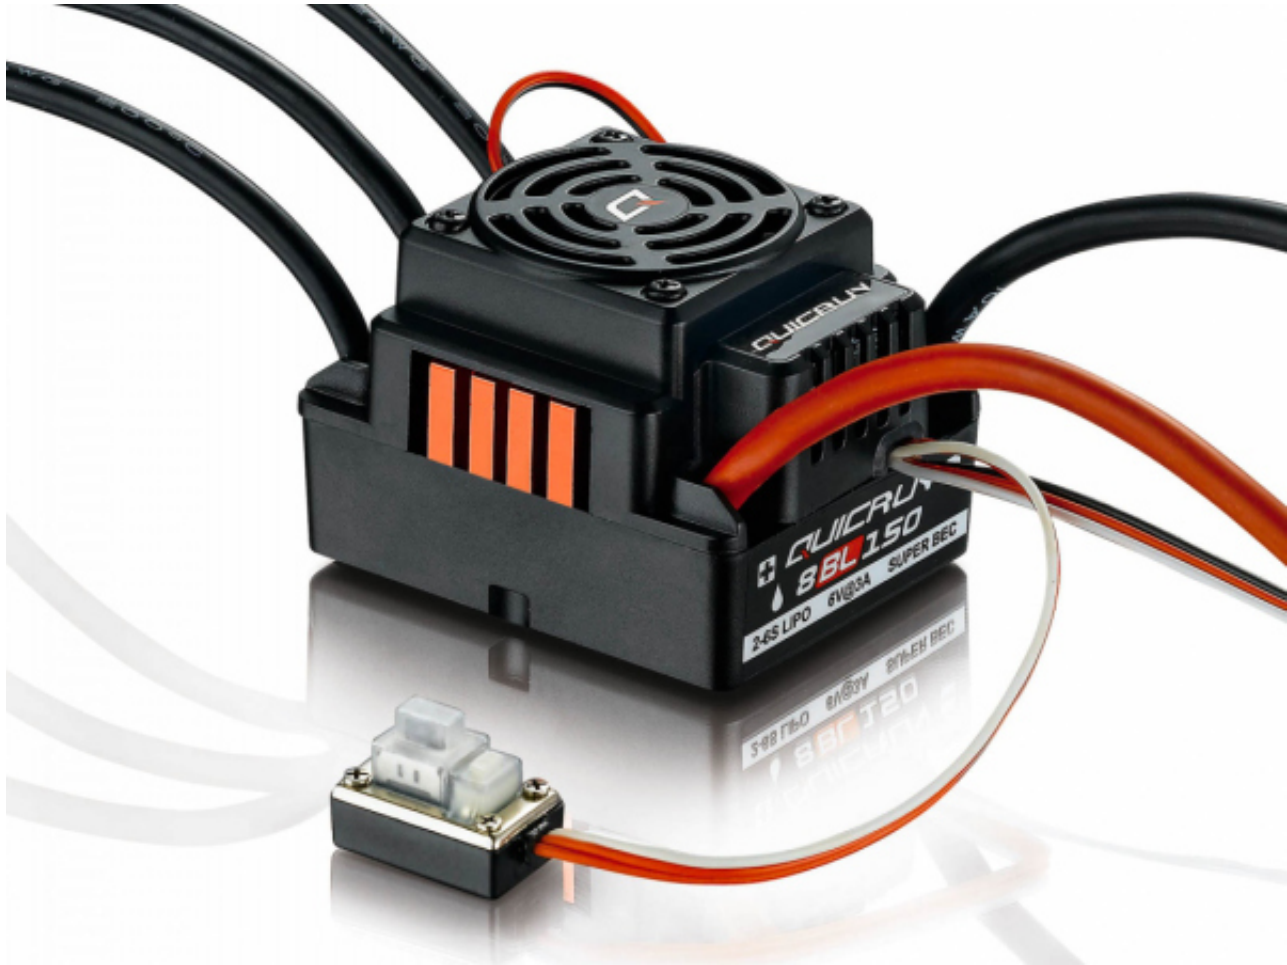

1. Water-proof and dust-proof for all-weather races.
(Note: please uninstall the cooling fan before using this ESC in water; Clean and dry it soon after the use for avoiding the connectors get rusty.)
2. External programming port, easy to connect to the Program Card when setting the ESC.
3. Proportional brake with 4 steps of maximum brake force adjustment and 8 steps of drag brake force adjustment.
4. 9 steps of acceleration (/punch) adjustment from “soft” to “Very aggressive” to fit for different kinds of models, tires and tracks.
5. Multiple protections: Low voltage cut-off protection / Over-heat protection / Throttle signal loss protection / Motor lock-up protection.
6. One-button (the “SET” button on the ESC) to set the ESC, and easy to reset all parameters to the

factory default settings.

7. Compatible with the optional device ---- the portable Digital LED Program Card, especially convenient for outdoor use.

Note: The Features can depend on the ESC. For Detail Information check the specs of each ESC.

QuicRun ESC WP8BL150 Brushless 150A Sensorless 1/8

Technical Data:

- Item-No.: HW30109001
- Cont./Peak Current: 150A/950A
- Resistance: 0.000,5 Ohm
- Motor Type Supported: Sensorless Brushless Motor
- Car Applicable: 1/8 Off-road Buggy/Monster
- Motor Limit
 - For 4S Lipo or 12 cells NiMH:
4274-size or smaller motor with the KV
