

## **Brandnew Upgrade Parts for CEN Racings "REEPER" Monster Truck**

07/19/2017 12:08 by Admin (comments: 0) Tuningparts by CEN Racing

### **New! KAOS - Advance Tuning by CEN Racing**

**CEN Racing** is now more than 15 years active in the RC branch. Under the new owner and the R&D-Team, CEN Racing focuses on further optimization of quality and innovative manufacturing. The production and development of the RC cars partially take place in the USA and Taiwan.

Besides the extensive range of Robitronic which complements the CEN cars with for example battery packs and chargers, a new series of **upgrade parts for the "REEPER" Monster Truck** is available as of now: **KAOS - Advance Tuning!**

The **complete range and detailed information is available via Download PDF** or in our online shop.

## „REEPER“ Monster Truck 4WD - RTR - 1/7

As an **RTR monster truck in scale of 1: 7**, the REEPER is a true Monster Truck. The brilliant and efficient design makes this monster truck unique.

Power transmission through **high-quality components** let the REEPER dominate **every terrain**. The REEPER feels comfortable in bashing, jumping and racing. The Big Bore shock absorbers, the adjustable turnbuckles and the extra large 7.5 "monster tires provide for a perfect grip and a balanced driving behavior. The Vertical Plate Chassis builds a superior performance and is extremely robust.

For the RTR model, all assembly is factory done also including the finished body shell. The serial version is designed for 4-6s LiPo Cells.
