

KoPropo EX-2 with Alloy steering wheel

02/18/2016 14:25 by admin (comments: 0) KoPropo

Ko Propo release two new version of the EX-II Radio. Main difference between these new once and the current available one is that they get supplied with a alloy steering wheel and that the menu now just show the English text information and no longer the Chinese as well.

Old & New Software to compare

The Menu of the current software **with** the Chines letters

The Menu of the current software **without** the Chines letters

The two new Versions

KO80564 - Ko Propo EX-2 Standard Edition
(Alloy steering wheel black)
