PR Racing - New: Highquality 2WD and 4WD Off Road Buggies

We're more than glad to announce that we offer PR Racing's competition-proven 2WD and 4WD Off Road Buggies now!

Since 2008 the taiwanese company **PR racing** manufactures and markets its highquality and state-of-the-art RC cars.

2WD and 4WD Off Road Buggies by PR Racing

The 2WD and 4WD competition kits by PR Racing are made of high-quality materials and can be upgraded easy and individually with PR Racing option parts to fit any track conditions.

The Flagship model, the latest PR Racing SB401-LW Lightweight Edition 4WD Buggy is up to 60g lighter compared to the current SB401 mode by use of carbon fibre materials and smart design optimizations. Agility and efficiency on track is greatly improved through the interplay of extensive use of carbon fibre materials, a new quieter differential gearbox and a turnbuckle top deck design that boosts torsional flex characteristics. The kit is rounded out by a lightweight centre driveshaft and bodyshell.

Gained a taste for it? If so, feel welcome to take a look at other state-of-the-art PR Racing cars!
